

Training As Action Series 2023-2024

OVERVIEW

Human Rights Educators USA's annual Training as Action Series (TAAS) is a virtual training series focused on bridging personal and collective action on some of the most critical human rights issues of today. TAAS creates an educational space to connect and collaborate with others in human rights education and training. It also gives participants the skills and information needed to take action on rights issues in their communities.

The 2023-2024 training series will celebrate the 75th anniversary of the Universal Declaration of Human Rights (UDHR) and center on the theme, "Protecting Democracy, Promoting Human Rights." Sessions will discuss topics such as voting rights, facilitating difficult conversations, organizing an advocacy campaign, communicating with decision makers, protesting, and mental wellness.
